

4th Annual 9th Grade Parent MATH Night

Monday, September 17 ~ 7:00pm - 8:30pm

Math Night, sponsored by the OPRFHS PTO, is an opportunity for parents to get an inside look at what happens in their student's classroom. The Math Department is offering four informative workshops for the current freshman parents. All participants will have an opportunity to attend the following two sessions:

- **H² - Homework Helpers:** Learn note-taking and organization strategies that promote success in the classroom. See examples of homework from all freshman math courses to help you learn how to help your child be successful on homework and tests.
- **Freshman Year Math and Beyond!** Learn how math goes beyond one classroom with discussion about science curriculum, Math Team, American Achievement Tests and more. You will have an opportunity to see how students can move to different levels of math and what tutoring opportunities are available.

Participants whose children have Geometry A (227), AAF (215), IAF (213), or Foundations of Algebra (203) are strongly recommended to take the following session:

- **Calculator's, Computers and CBR's...oh my!** Feeling overwhelmed about the technology of today? Experience how technology is being used in your child's math classroom. Enjoy a "hands on" demonstration of graphing calculators and much more!

Participants whose children have Algebra I (211) or Algebra I Block (212) are strongly recommended to take the following session:

- **The Agile Mind:** Learn more about the new program for our traditional algebra I class and algebra I blocked classes. You can see how the online service, Agile Mind, will make a clear presentation of mathematical concepts using a combination of written descriptions, illustrations, animations and interactive activities.

Interested in attending Math Night? Please fill out the following registration form and have your student return it to his/her current math teacher **no later than September 6**. A confirmation letter will be sent home with your child prior to the event. Walk-in registration the evening of the event will be on a space available basis. Questions regarding the event can be directed to either Ms. Lauren Smith at (708) 434-3437 (lsmith@oprfeh.org) or Ms. Kim Foltzler at (708) 434-3353 (kfoltzler@oprfeh.org).

.....
I will be attending the PTO Math Night on Monday, September 17th.

(Please print clearly!)
